What makes Sovereign different?

If you are passionate about the provenance of your packaging, its environmental credentials, quality and value then we are the perfect partner for your business.

EXPERTISE

Deep knowledge and expertise. No obligation free consultation available on request

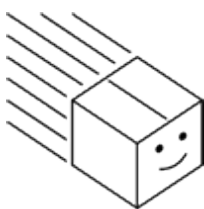

PARTNERSHIPS

Rely on our global buying team to supply packaging that will enhance your business

ENVIRONMENT

Extensive ranges of recycled, recyclable and compostable products

NEXT DAY DELIVERY

Order by 3pm weekdays and get next working day delivery within the M25

TRUSTED BY OVER 1,000 HIGH END FOOD OUTLETS

Fair and honest advice and pricing without compromising on quality

UNIQUE IDEAS & INNOVATIVE SOLUTIONS

We work with customers to develop exciting bespoke packaging solutions

When Quality Matters

Sovereign has been serving the the UK's Food and Coffee to go sector for almost 30 years providing quality products at competitive prices. Our clients put a lot of effort into producing high quality food and drinks and want first impressions to be perfect from the moment their customers take the product off the shelf or receive their meal at their door. The packaging must look - and feel - great and protect the meal so it arrives in as close to perfect condition as possible! Today packaging must also be locally recyclable and home compostable where possible.

- **Expert honest advice on sustainability**
- **Specialists in bespoke packaging and print**
- **Free samples service**
- **Modern delivery fleet**
- **Customers around the globe**

Call us on 020 3817 4150 or contact us 24/7 at sales@e-2go.net for a free no obligation review of your packaging or to request free samples of our products!

Locally Recyclable Food Packaging

What happens to packaging after use has come into focus in recent months and should impact your decisions on what products to buy. The term single use is inaccurate in our view as there is a life for packaging after it has been used the first time as it can and should be recycled, and much of our range has been engineered to be easily and locally recyclable. Most of our plastic packaging already has recycled content and is in high demand by UK recyclers after use to make into new products such as bottles.

Thanks to new technology Sovereign can now supply innovative coffee cups and other hot food packaging with very effective water based 100% plastic free linings. Beware as many suppliers of PLA lined cups sell these as “plastic free” but this is not true as PLA is most definitely a plastic too!

We stock a wide range of Bagasse plates bowls and food boxes which are tree-free made from sugar cane waste and we also offer a more upmarket alternative made from organic dead palm leaves formed using only water and heat. We stock 2 grades of wooden cutlery and recommend switching from wooden stirrers to ones made from bamboo which is a fast growing weed and makes great quality stirrers!

If you want to ensure your packaging is truly sustainable and has the highest environmental credentials we will be happy to work with you and advise what materials and products will work best for your business!

GoodLife®

The GoodLife® range of compostable clamshells, plates and bowls are both strong and environmentally sustainable. That is because all GoodLife® products are home compostable and made from otherwise unwanted organic material - such as our huge range of bagasse products made from the outer fibrous waste left after the sugar cane is extracted.

Choose from one of the world's biggest ranges of biodegradable and compostable food service products. You will be pleased not only with the integrity of the products' origins but the friendly and efficient service and advice you will receive.

GoodLife® Bagasse Range

TerraCup®

Locally Recyclable, Home Compostable & Plastic Free Lined

The Goodlife® TerraCup® represents a huge and exciting breakthrough. They are home compostable and will fully decompose on a standard compost heap - or in landfill - in 6 to 9 weeks leaving no residues. We have test results we can share, showing there was zero impact on the environment in any way. More significantly these can be recycled locally in the standard paper and board recycling systems which are available and easily accessible in all areas of the UK.

We can personalise these cups by printing on a smooth wall version. Sovereign also offer a unique bespoke embossing service allowing customers to design their own embossed outer sleeve - emboss with any pattern that fits your image.

Natural Organic Palm Plates, Bowls & Platters

Palm Leaf Plates and Bowls are made from the leaves which fall from the Areca Palm Tree, indigenous to India, and are formed using only heat and water!

Each organic plate is unique in colouring and texture depending on the leaves they are produced from, and this industry gives much needed work to many women living in remote parts of India close to where the trees grow.

These totally natural products have zero impact on the environment as there are no additives and they can be recycled or home composted, even if they end up in land-fill they will totally decompose in around 6-9 weeks!

Use with hot or cold, dry or wet, spicy and oily foods. Ideal for special events, catering, weddings, conferences, anywhere you want something disposable that is sturdy and stylish yet totally environmentally friendly!

Wooden Bakery Range

Prepare, Bake, Serve and Sell!

Our range of bakery products ensures that whether you are baking bread, pies, cakes or muffins we have the perfect packaging solution for you!

Available in a variety of shapes and sizes to suit any requirement, our range of wooden baking moulds are supplied with brown kraft waterproof greaseproof linings to fit.

These moulds are made with untreated wood such as poplar, aspen or birch, all untreated! All recyclable and biodegradable, a great eco-friendly solution.

All moulds are oven-safe, allowing you to fill the mould with your mixture and place in the oven to cook. For freezer use or microwave oven too, these moulds can withstand temperatures between -40°C and $+240^{\circ}\text{C}$.

Short Run Personalised Hot Cups

We can print from 1 basic colour to photographic quality images on hot cups from a minimum order of just 5,000 - only 10% of traditional minimums. If you don't have the ability to design the cups yourself we can do that for you too - all we need is your logo. Once you approve your artwork you will have the cups in your store in less than 4 weeks!

Customers can create their own ripple design - for example have coffee beans in relief, or their logo embossed into the outer ripple sleeve!

Personalised Labels

A great way to personalise your products for a low cost is to print a label.

Labels can be produced in just about any shape and size that you like and the minimum order quantity is just 5,000.

They can be applied to any product you can think of to give it that personal touch. We will guide you to the perfect label solution!

VIP Triple Walled Coffee Cups

A UNIQUE INSULATED HOT CUP IN 4 SIZES AND 2 COLOURS!

Our VIP triple walled cups are hugely popular. The unique micro ribbing system gives great heat insulation and give the cup a feeling of extra strength. Combine that with the classic two-tone designs and you have an outstanding cup at a very competitive price for a product of this high quality.

We can now offer this in-demand range with a 100% plastic free lining allowing you and your customers to recycle locally with the rest of the paper and board waste and the cups are also 100% PE and PLA free.

R500	Clear Round PET Bowl	500ml	300
R750	Clear Round PET Bowl	750ml	300
R1000	Clear Round PET Bowl	1000ml	300

Our strong clear PET hinged containers are ideal for salads, cookies and candies. The lids on the round bowls are made to be easily detached making eating or serving the salad better. The round bowls all stack securely, even a variety of sizes.

All our salad bowls are made in Europe with a minimum of 70% post consumer recycled content offering several high quality, practical, and attractive options.
